Index by Category

— General —

Elastomer Compatibility—Base Oil and Additive Effects, Beret, S., Wong, P., Boersig, T., August 1996.

Extracting, Imaging, and Quantifying Soap Fibers in Grease, Rizzo, N., Irwin, L., Foster, M., Funk, M., April 1996.

The Grease Market in Italy, Ponti, G., Valentinetti, M., March 1997.

Grease Production in Mexico—A New Plant Thirty Years Later, Nah-Chi, V., June 1996.

The Hyper-Greco-Latin Square Experimental Design as a Formulation Ingredient Selection Tool, Haag, W., July 1996.

Invest in the Future—The NLGI Grease Education Program, Todd, P., March 1997.

A Lithium Base Grease Made With a Depleted Lithium Hydroxide Monohydrate, Hissa, R., February 1997.

New Elastomers Revitalize NLGI Certification, Verdura, T., Flanagan, S., June 1996.

Strategic Manufacturing Management, Dell'Oro, T., December 1996.

Survival and Growth in the Mature Grease Market, Francis, D., January 1997.

— Product Development —

Aluminum Compounds in Various Fluids and Their Behavior, Kis, J., Tóth, J., September 1996.

The Chemistry of Castor Oil and Its Derivatives, Hurd, P., April 1996.

The Effect of PTFE Thickener Particle Characteristics on Grease Formulation and Performance, Bell, G., July 1996.

Greastics—A New Type of Solidfied Lubricant, Yaegashi, K., Kimura, H., June 1996.

New Greases for CV-Joints, Heckler, R., Dresel, W., July 1996.

Titanium Complex Grease—Some New Findings, Kumar, A., Mittal, B., Kannan, C., Sayanna, E., Naithani, K., Rai, M., Bhatnagar, A., May 1996.

Tribological Studies of Substituted 2,4-Dithiomalonamides in Aluminum Complex Grease, Singh, T., Bhan, A., November 1996.

— Additives —

Additives for Environmentally Acceptable Lubricants, Fessenbecker, A., Roehrs, I., Pegnoglou, R., September 1996.

— Bearings/Greases —

Comparative Tribological Performance and Chemical Results of a Commercial Grease Targeted for High Performance Tapered Bearing Application, Kernizan, C., August 1996.

Gear Additive Considerations For the Next Decade, Macpherson, I., Kuhlman, R., Carlson, J., Taylor, J., April 1996.

Gear Lubricants as Design Elements—A Tool for Gear Designers, Bartz, W., Michaelis, K., December 1996.

Lifetime Lubrication of Rolling Bearings Under Extreme Conditions, Loderer, D., November 1996.

— Transportation —

Technology and Lubricants of the 1997 Domestic Automobiles, Fennema, R., January 1997.

— Testing —

An Accelerated Test Method for Oxidation Stability Test for Predicting Grease Behavior Under Dynamic Conditions, Santorelli, R., Brandolese, E., Pisaniello, G., Ponti, G., February 1997.

Automation of L-37 and L-42 Gear Tests for Improved Precision and Repeatability, Wallace, W., Kanga, P., Duckstein, R., Spohn, C., May 1996.

New ASTM and DIN Methods for Measuring Tribological Properties Using the SRV Test Instrument, Dickey, J., March 1997.

— Environmental Issues —

Evaluation of Environmentally Acceptable Hydraulic Fluids, Rhee, I., August 1996.

Index by Article Title

An Accelerated Test Method for Oxidation Stability Test for Predicting Grease Behavior Under Dynamic Conditions, Santorelli, R., Brandolese, E., Pisaniello, G., Ponti, G., February 1997.

Additives for Environmentally Acceptable Lubricants, Fessenbecker, A., Roehrs, I., Pegnoglou, R., September 1996.

Aluminum Compounds in Various Fluids and Their Behavior, Kis, J., Tóth, J., September 1996.

Automation of L-37 and L-42 Gear Tests for Improved Precision and Repeatability, Wallace, W., Kanga, P., Duckstein, R., Spohn, C., May 1996.

The Chemistry of Castor Oil and Its Derivatives, Hurd, P., April 1996.

Comparative Tribological Performance and Chemical Results of a Commercial Grease Targeted for High Performance Tapered Bearing Application, Kernizan, C., August 1996.

The Effect of PTFE Thickener Particle Characteristics on Grease Formulation and Performance, Bell, G., July 1996.

Elastomer Compatibility—Base Oil and Additive Effects, Beret, S., Wong, P., Boersig, T., August 1996.

Evaluation of Environmentally Acceptable Hydraulic Fluids, Rhee, I., August 1996.

Extracting, Imaging, and Quantifying Soap Fibers in Grease, Rizzo, N., Irwin, L., Foster, M., Funk, M., April 1996.

Gear Additive Considerations For the Next Decade, Macpherson, I., Kuhlman, R., Carlson, J., Taylor, J., April 1996.

Gear Lubricants as Design Elements—A Tool for Gear Designers, Bartz, W., Michaelis, K., December 1996.

The Grease Market in Italy, Ponti, G., Valentinetti, M., March 1997.

Grease Production in Mexico—A New Plant Thirty Years Later, Nah-Chi, V., June 1996.

Greastics—A New Type of Solidified Lubricant, Yaegashi, K., Kimura, H., June 1996.

The Hyper-Greco-Latin Square Experimental Design as a Formulation Ingredient Selection Tool, Haag, W., July 1996.

Industrial Gear Oil: Past, Present and Future, Cain, R., Greenfield, P., Hermann, G., October 1996.

Invest in the Future—The NLGI Grease Education Program, Todd, P., March 1997.

Lifetime Lubrication of Rolling Bearings Under Extreme Conditions, Loderer, D., November 1996.

A Lithium Base Grease Made With a Depleted Lithium Hydroxide Monohydrate, Hissa, R., February 1997.

New ASTM and DIN Methods for Measuring Tribological Properties Using the SRV Test Instrument, Dickey, J., March 1997.

New Elastomers Revitalize NLGI Certification, Verdura, T., Flanagan, S., June 1996.

New Greases for CV-Joints, Heckler, R., Dresel, W., July 1996.

Strategic Manufacturing Management, Dell'Oro, T., December 1996.

Survival and Growth in the Mature Grease Market, Francis, D., January 1997.

Technology and Lubricants of the 1997 Domestic Automobiles, Fennema, R., January 1997.

Titanium Complex Grease—Some New Findings, Kumar, A., Mittal, B., Kannan, C., Sayanna, E., Naithani, K., Rai, M., Bhatnagar, A., May 1996.

Tribological Studies of Substituted 2,4-Dithiomalonamides in Aluminum Complex Grease, Singh, T., Bhan, A., November 1996.

CALL FOR PAPERS

**Submit an abstract to NLGI
for a possible paper at the 1997
Annual Meeting in California.**
